

Whilst the operations of BioClad Ltd are unlikely to have a major impact upon the environment, BioClad recognise that any business activity can potentially have an adverse effect.

BioClad Ltd will attempt to reduce adverse environmental effects potentially arising from the conduction of its operations by taking a responsible approach to:

- The consumption of energy
- The consumption of disposable waste
- The disposal of waste
- Travel and transport

This will be achieved by:

- Reducing consumption where practicable
- Purchasing and using less environmentally damaging alternatives
- Re-using items and articles
- Re-cycling waste materials

All employees of BioClad will be expected to work in accordance with the principles of this policy.
